

OLIGONUCLEOTIDE MANUFACTURING

QUALITY, COMPLIANCE, CONSISTENCY

During the last 15 years, we've supported a variety of projects whether it was N-of-1 or early clinical projects, whether it was a standard ASO, siRNA, CpG oligo or an aptamer, whether it was standard or complex chemistry. Whatever you require, XNApharma is your partner.

OUR COMPREHENSIVE CAPABILITIES

MANUFACTURING CAPACITY

From N-of-1 scale to several-hundred-gram-scale projects

TECHNICAL SETUP

State-of-the-art equipment for GMP oligonucleotide manufacturing from up to down stream process

FACILITY

GMP-compliant Class C in D cleanroom concept

BROAD EXPERTISE

Experience in a wide range of modified oligonucleotides and complex chemistries

CUSTOMER CARE

Professional team to support your project in manufacturing, scale-up, chemical analytics and regulatory consulting.

Why XNApharma?

15 YEARS OF EXPERIENCE IN OLIGONUCLEOTIDE DEVELOPMENT

STATE-OF-THE-ART MOLECULAR BIOLOGY LABORATORY

FLEXIBLE PROJECT DESIGN

IN-HOUSE GMP MANUFACTURING CAPACITIES

CLINICAL AND REGULATORY SUPPORT

WE WORK TOGETHER WITH

BIOTECH COMPANIES

PHARMA COMPANIES

UNIVERSITIES

RESEARCH INSTITUTES

START-UPS IN RNA/OLIGO THERAPY SECTOR

Together we'll take your oligonucleotide therapeutics to the next level.
